# Integrated Management System Policy

Lionheart, in its promise to deliver a world class facility that can cater the most secured, beneficial, and highly valued products globally, shall do its best to establish that promise into reality

1. Team Members shall conform to all legal requirements and other needs from its customers and consumers regarding Quality, Food Safety, Environment and Occupational Safety and Health.
2. Team Members shall take all possible initiatives to recognize, assess, and accomplish quality and food safety risks concerns by implementing standards that would impact the products to its best form.
3. Team Members shall absolutely inhibit themselves in committing acts that would cause any incidents of occupational injury and health adversity by creating a “safety philosophy” through the participation and commitment of its shareholders, team members, and business partners.
4. Reduce our environmental effects through the actively controlling and improving our whole organization’s processes, products, packaging and services; and maintaining programs that will protect and preserve a sustainable environment.
5. Continual enhancement of our management systems and communicate relevant information to all employees, shareholders, community, customer, consumer and other stakeholders.
